PI-F06 | Rivera v. Meridian Cargo Services

Plaintiff signed discovery verification - fictional

All names, events, institutions, numbers and addresses below are invented solely for local software acceptance testing.

Identity and current medical situation

Declarant: Elena Sofia Rivera, formerly Elena Sofia Ruiz; declaration dated 10/10/2026.

I presently reside at 18 Mockingbird Lane, Apartment 2, New Haven CT 06511.

I remain under Morgan Lee, DPT for therapy and under Dr. Lena Cho, M.D. for left wrist follow-up.

I have not fully recovered. I claim current activity restrictions and a permanent partial impairment of my left upper extremity based on the September 30 medical prognosis.

After the crash, I was confined to my home except for treatment between 02/17/2026 and 03/01/2026; I was not confined to bed.

I was not aware of any other permanent disability rating for another body part beyond Dr. Cho's left-upper-extremity assessment.

Alcohol, medication and phone confirmation

During the eight hours before the 02/14/2026 crash I consumed no alcohol, recreational drugs, prescription medication or over-the-counter medication.

At the time of the crash and immediately before it I was not making calls, texting, emailing, browsing or otherwise using a cell phone.

My phone was stored in my bag on the back seat.

I know the emergency department performed blood alcohol and drug screening approximately two hours after the collision.

Claims, settlements and disclosures - fictional plaintiff verification

All names, events, institutions, numbers and addresses below are invented solely for local software acceptance testing.

Claims and employment

I have made no workers compensation claim related to the 02/14/2026 crash because it occurred during a personal trip.

I have not received workers compensation benefits for the 02/14/2026 crash.

I have not signed a covenant not to sue, release, discharge or settlement of a claim arising from the 02/14/2026 incident.

Neither I nor anyone acting for me has agreed to limit anyone's liability from that crash.

I know of no other employment in the three years before the crash beyond Bayfield Technical Services Inc.

I claim impairment of earning capacity due to the documented restriction on my regular equipment maintenance role.

Past and later injuries

My prior left-wrist sprain occurred at Harbor Market on 05/05/2022 and was resolved by June 2022. I made a claim and brought suit over that prior injury, which settled in 2023.

My later fall on 07/12/2026 caused a separate right knee bruise. I filed no claim and brought no lawsuit over that fall.

Neither my prior wrist sprain nor the later knee bruise resulted in a medical permanent-disability assessment.
