FICTIONAL TEST EVIDENCE - NOT A REAL RECORD

Synthetic image inventory and photographic evidence review

Image inventory (illustrative only)

A mock photo log lists three synthetic images: SCENE-01 roadway illustration (02/14/2026), VEHICLE-02 vehicle-position illustration (02/14/2026), WRIST-03 annotated medical diagram (02/20/2026).

All pictured material is computer-generated test imagery, NOT authentic photographs of an accident, vehicle or injury. Do not falsely describe them as genuine evidence.

The photo log is a search lead for Form 205 Request 11 only. Original files, photographer, custody and service must be separately verified.
