FICTIONAL TEST EVIDENCE - NOT A REAL RECORD

Internal production inventory (not a certificate of service)

Proposed draft Bates index only

Internal proposed Bates range PLTF_TEST_0001 through PLTF_TEST_0142 is an unissued planning range, not confirmed service.

Proposed medical-record batch: 205_A_Hospital_Records_and_HIPAA_Status.pdf and 205_D_Medical_Bills_EOB_and_Payer_Claims.pdf.

Proposed scene-material batch: 205_E_Photograph_Contact_Sheet_and_Inventory.pdf and 205_F_Synthetic_Image_Contact_Sheet.pdf; these contain only synthetic diagrams, not authentic photographs.

No documents were electronically transmitted or otherwise served by this test suite. A reviewer must select files, assign real Bates identifiers, and independently verify service.
