INQUISITIO - FICTIONAL ACCEPTANCE EVIDENCE SUITE

==========

ALL MATERIALS ARE FICTIONAL TEST DATA. NOT REAL LEGAL OR MEDICAL RECORDS.

DO NOT FILE, SERVE, OR USE IN AN ACTUAL CASE.

CHOOSE ONE TEST CASE AT A TIME. DO NOT COMBINE EVIDENCE FROM DIFFERENT CASES.

FORM 202 - Motor vehicle personal injury:

Matter name: Rivera v. Meridian Cargo Services

Docket number: CV-TEST-202-0042

Plaintiff: Elena Sofia Rivera

Defendant: Meridian Cargo Services LLC and Parker Moss

Upload: ALL 3 PDFs from FORM207_SELF_EMPLOYED_OPTIONAL_UPLOAD_ONLY (6 pages total).

Employee-related subparts 3(b) to 3(h) should be skipped; self-employment 4(a) to 4(l) should be populated where supported.

QUICK TEST (one combined PDF per test):

Instead of selecting multiple PDFs, choose ONE matching PDF in ONE_FILE_PER_CASE_QUICK_TEST.

DO NOT upload combined PDF alongside original source PDFs (that duplicates evidence).

Full acceptance testing should use the separately named source PDFs to verify cross-document citations.

TO VALIDATE:

1. Create a NEW matter for the selected case. Do not reuse an older test matter.
2. Choose correct Form 202 or Form 207 and fill in fields exactly as above.
3. Select all case PDFs in the corresponding UPLOAD_ONLY folder; Build response workspace.
4. Record source count, page count, extracted facts, supported/partial/conflict/N/A and validated citations.
5. Use the DO_NOT_UPLOAD_ANSWER_KEYS folder to check the expected facts for EVERY field.
6. Inspect source filename, PDF page, and exact supporting quote. Verify the quote physically exists on the cited page.
7. Generate Evidence report, Word, and completed-form PDF and compare statuses and sources.
8. Repeat from scratch with the optional self-employed case.

IMPORTANT SAFETY CONTROLS:

- Every page bears FICTIONAL TEST DOCUMENT - NOT A REAL RECORD.
- The answer keys are NOT evidence and must NEVER be uploaded into Inquisitio.
- Source evidence is deliberately written as plausible case documents, NOT as a pre-filled answer sheet.
- The acceptance keys describe expected findings, not guaranteed version-specific status labels.

Correctly cited answers, legitimate partial findings, and correct refusals outrank hitting a quota.

- No unsupported facts, cross-case leakage, or failure to flag explicit contradictions is acceptable.
- A failed test does not necessarily identify extraction as the cause: check file selection, matter association,

OCR or text extraction, mapping, drafting and citation validation separately.
